

UMPIRING 2021

New Rule Change Overview

Rule/Law Change Overview - Kick Ins (0:00-3:57)

<https://www.youtube.com/watch?v=A3mnpKPqVLw&feature=youtu.be>

- Player on the mark to be set 15 metres from the top of the goal square
- No requirement for player to 'stand' on the mark as long as player doesn't go over the mark, to be consistent with our interpretations around the grounds.
- Protected Area - players must be encouraged to 'actively' leave the protected area by Field Umpires. "Making an effort". If the attacking player stands in the protected area without making an effort to leave and is not manning up a player then 50m or 25m will be awarded.
- If a defending player goes into the protected area to create an option from the kick out then the attacking team is allowed to follow that player in.
- **Reminder: Defending team are the team kicking the ball out, attacking team are the team that has just scored a behind.**
